One proud man who regularly sent money with his did not realize that it was illegal on the part of the bookmaker to accept bets on the spot and to bookmakers—speculators—in other words, to accept bets and to strike the money in the streets. Many commission agents are all betting slips and money taken away, a fine imposed, and the slips destroyed, so it is not so.

ROTARY IDEALS

ARE OUTLINED

J. H. Beatty, M.P.P., Describes Recent International Convention

QUALITY MOST NEEDED

The fact that the Rotary movement, by means of its annual growth, was far in advance of the shape which it could be carried on with a heavy handshake and a slap on the back, was brought out by J. H. Beatty, M.P.P., at a general address made at the luncheon of the Victoria Rotary Club, held in the Kingsway Hotel yesterday. Beatty said Mr. Beatty was something more than a politician, and could attain to ends if every one of the members put his shoulder to the wheel, and did all in his power to assist the movement.

Mr. Beatty described the recent Rotary International Convention, at the same time expressing the opinion that the best results could be gained from action, rather than from the advantages of forming closer contacts among the clubs.

"The attainment of Rotary ideals," he said, "is not a matter of quantity or quality, and he thought that for this reason, more of the larger unit might advantageously be split up into two or more separate units."

Mr. Beatty briefly outlined the course of the International Convention, which was attended by over 1,000 Rotarians representing some 100 different countries. He had been particularly impressed by the fact that the convention was held in London, and that the British representative, Mr. Henry Thornton, had given an inspiring message to the convention.

Mr. Beatty said that he had been so chary of criticizing the members of foreign countries, that he had looked at the traditions which were the basis of the movement.
